Competency Enhancement Programme on 'Project Management for Development'

September 12-14, 2019

Programme Co-ordinator: Prof. Shankar Purbev

Introduction

Governments, public institutions, development agencies, and others who promote economic and social development often struggle to turn objectives into concrete realities that increase social well-being and achieve results within the available time with scarce resources. Project management provides a structure for dealing with the uncertainty that most organizations are facing. Sound project management cannot be left to chance.

This course provides concepts and tools to apply in project management that can generate a substantial change in the way objectives are being met. This course seeks to strengthen participants' capacities in project management so that projects can be effectively and efficiently executed. This course provides participants with an overview of the essential elements of project management and the project management life cycle. This course provides the basics for project managers by introducing essential project management concepts and methods. Participants will learn details about the project life cycle, how to identify and schedule project resources, create project flow charts, and produce critical path planning and evaluation reports

Learning Objectives

The specific objectives of the Program are:

1. To acquaint participants with tools and techniques to develop effective and efficient project planning, implementation and monitoring systems and preparation of project reports,
2. To provide a forum to discuss various issues and challenges associated with project management, and share their experiences for the implementation of projects.
3. To equip the participant with skills and know- how of Project formulation and DPR writing.
4. To familiarize the participants with MS Project.

Programme Content
