Date – 19th December 2023

Rolling Advertisement for Faculty Positions

We are an academic institution engaged in post-graduate and mid-career professional education, interdisciplinary action research, and consulting in development management. Established in 2014, our Mission is to produce and disseminate knowledge of policy, institutions, and practices that enable 'empowerment at the grassroots' for sustainable, resilient, and democratic local development.

Seeking excellence within substantive relevance is our guiding motto. We adopt case-based, dialogic methods in pedagogy to iteratively connect knowledge and practice. The aim is to assist learners in discovering and rejoicing in knowledge. In scholarship, we prefer grounded, descriptive, and analytical knowledge building.

We seek dynamic and entrepreneurial faculty who consciously subscribe to our pedagogic and scholastic philosophy. As we prepare to enter the second decade of our founding, we are keen to add and strengthen our academic resources to further institutional relevance and effectiveness.

Positions are open across levels and academic groups; positions would be offered to selected candidates as per their eligibility and suitability. Potential applicants may visit <https://www.dmi.ac.in/frs/> for all the details of academic groups, faculty positions and the application procedure. 31st January 2024 is the first deadline for scrutiny of applications.
