MANAGEMENT
INSTITUTE

The Development Management Institute (DMI) was established on February 13, 2014, under the initiative of the Government of Bihar. DMI aims to enhance the livelihoods of small producers and marginalized communities by organizing them into democratically governed institutions. These institutions leverage collective strengths and partnerships with professionals to integrate technology and markets for mutual benefit. DMI's mission focuses on social transformation and economic empowerment at the grassroots level, aiming to improve social structures, economic contributions, and overall well-being of individuals and communities. The institute offers a two-year residential Post-Graduate Programme in Development Management and conducts Competency Enhancement Programmes for mid-career development practitioners.

VISION

Being the preferred destination for cross-functional and interdisciplinary education and research on policies, institutions and practices in development management.

MISSION

To advance development management knowledge and practices through collaborative research, education, and innovation, driving sustainable solutions that empower grassroots communities.

PGDM

DMI's flagship program, the two-year residential Post Graduate Diploma in Management (Development Management), accredited by AICTE since July 2014, is designed to foster profound growth and transformation among its graduates. Rooted in interactive and experiential learning, the program aims to cultivate personal development and professional excellence through a comprehensive curriculum.
